COUNTERTOP DRILL. Plan required.
Ref: 435 00 050 Price: 55 Points

To avoid deformation of the lids, it is necessary to install the reinforcing bar in the module where the basin will be supported.
Um eine Verformung des Waschtischplatten zu vermeiden, ist es notwendig eine Waschtischplatten-Stabilisierung in dem Modul zu installieren, auf dem das Waschbecken aufliegt.
Per evitare la deformazione del piano, è necessario installare la barra di rinforzo nel modulo dove il lavabo sarà sostenuto.

To avoid deformation of the lids, it is necessary to install the reinforcing bar in the module where the basin will be supported.

Um eine Verformung des Waschtischplatten zu vermeiden, ist es notwendig eine Waschtischplatten-Stabilisierung in dem Modul zu installieren, auf dem das Waschbecken aufliegt

Per evitare la deformazione del piano, è necessario installare la barra di rinforzo nel modulo dove il lavabo sarà sostenuto.

To avoid deformation of the lids, it is necessary to install the reinforcing bar in the module where the basin will be supported.

Um sins Verformung des Waschtischplatten zu vermeiden, ist es notwendig eine Waschtischplatten-Stabilisierung in dem Modul zu installieren, auf dem das Waschbecken aufliegt.

Per evitare la deformazione del piano, è necessario installare la barra di rinforzo nel modulo dove il lavabo sarà sostenuto.

To avoid deformation of the lids, it is necessary to install the reinforcing bar in the module where the basin will be supported.

Um eine Verformung des Waschtischplatten zu vermeiden, ist es notwendig eine Waschtischplatten-Stabilisierung in dem Modul zu installieren, auf dem das Waschbecken aufliegt

Per evitare la deformazione del piano, è necessario installare la barra di rinforzo nel modulo dove il lavabo sarà sostenuto.

To avoid deformation of the lids, it is necessary to install the reinforcing bar in the module where the basin will be supported.
Um eine Verformung des Waschtischplatten zu vermeiden, ist es notwendig eine Waschtischplatten-Stabilisierung in dem Modul zu installieren, auf dem das Waschbecken aufliegt.
Per evitare la deformazione del piano, è necessario installare la barra di rinforzo nel modulo dove il lavabo sarà sostenuto.

The towel rail is always centred on the sink.
With two sinks and one towel rail, the location will be centred on the sink.
For other locations please send a blueprint.
Not available for Zen and Iris models.

Options

1 sink / 1 Waschbecken / lavabo a 1 vasche

Price:
Washbasin and plinthed washbasin:
Price of higher measure + 10%.
Preis des höheren Maßes + 10%.
Prezzo della misura superiore + 10%.

How do I know the price?
Wie berechnet man den Preis?
Come conoscere il prezzo?

Add the total width of your customised washbasin and look for the price of the larger size in the standard price list for the same model. **Increase this price by 10%. You got it!**

For washbasins it is essential to specify the distance from the left and right sides to the centre of the drain.

Addieren Sie die Gesamtlänge Ihres maßgefertigten Waschbeckens und suchen Sie den Preis des nächsthöheren Waschbeckens in der nächsten Größe. Erhöhen Sie diesen Preis um 10% und Sie haben es geschafft!

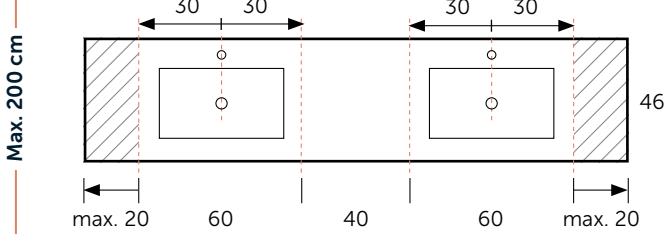

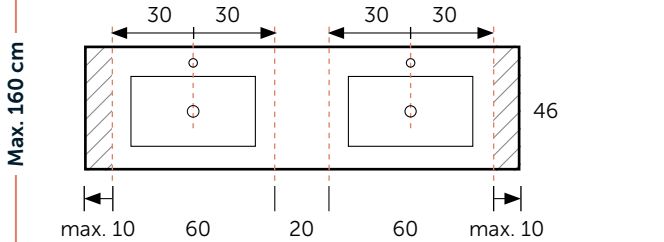

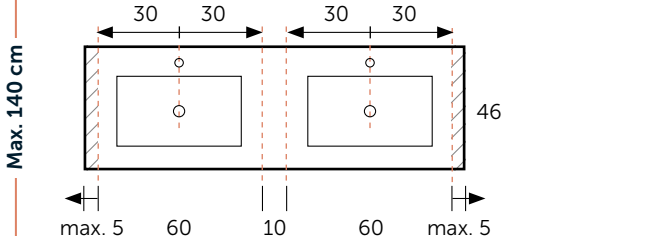

Bei Waschbecken ist es notwendig, den Abstand von der linken und rechten Seite bis zur Mitte des Ablaufs anzugeben.

Aggiungete la larghezza totale del vostro lavabo su misura e cercate il prezzo della misura più grande nel listino standard dello stesso modello. **Aggiungete il 10% a questo prezzo e il gioco è fatto!**

Per i lavabi è indispensabile specificare la distanza tra i lati destro e sinistro e il centro dello scarico.

To avoid deformation of the lids, it is necessary to install the reinforcing bar in the module where the basin will be supported.

Um eine Verformung des Waschtischplatten zu vermeiden, ist es notwendig eine Waschtischplatten-Stabilisierung in dem Modul zu installieren, auf dem das Waschbecken aufliegt.

Per evitare la deformazione dei coperchi, è necessario installare la barra di rinforzo nel modulo dove il lavabo sarà sostenuto.
